**4.b** Select S1000D Data (Fig 3).**Note 1**

To load data from CSDB you need to configure the connection ([LPPUBLISH-A-00-00-00-00A-130A-A](#)).

Select data source:

- Load ZIP file
- Load data from CSDB

**4.c** Select S1000D Resources (Fig 3).**Note 2**

In PDF and SCORM workshops, selected resources will be published to separate files. Each selected resource will have single output file.

For IETP workshop all selected resources will be combined in one output standalone IETP image.

**Note 3**

Publication modules and SCORM package modules will be published with all referenced resources.

Data modules will be published with all referenced graphics.

**4.d** If necessary, edit profile (Fig 4).

Language dependent business rules:

- Text Marks (TM)
- Configurable Attributes (CA)

- Units of Measure (UOM).

Language dependent business will be applied to the resources with the relevant language-country pair. If profile does not contain required language-country pair the default pair will be applied.

To exchange profiles between LIBROPLANTA CSDB and LIBROPLANTA Publisher use Import/Export profile capabilities.

Refer to (LP-A-50-00-00-00A-040A-A) for description of business rules.
